KeijiroSquid

An ambient app that shows off a stunning hologram effect using special shaders developed by Keijiro Takahashi (https://www.keijiro.tokyo/). This demo is not interactive.

Controls

Escape: exit app

Note

If the app opens on the incorrect monitor, press **Windows Key + Shift + Left Arrow** to switch it to the Looking Glass (now, and any time the app is opened in the future). Alternatively, open the app through the command line using “filename.exe -adapter 2”.
